

Announcing a New Community Partnership!

DENVER PUBLIC SAFETY YOUTH MENTOR PROGRAM

A valued partnership between:

As part of the City of Denver's commitment to strengthen their relationship between community members, especially youth and their families, we are thrilled to announce our new partnership with the City of Denver and Denver Public Safety Youth Programs. Through this collaboration, we've developed a youth mentoring program, knowing the significant impact mentoring relationships can have on both youth and adults.

PROGRAM VISION

Every young person in the City and County of Denver will have access to resources, support, and positive experiences through healthy mentoring relationships to help them thrive and make positive contributions to their community.

PROGRAM MISSION

Provide group and individual mentoring services to 6th - 8th grade students enrolled in Denver Public Schools or who reside in areas that have higher than average rates of crime/violence compared with other areas of the city. We provide youth with positive and supportive relationships, opportunities to engage with school and community, tools, and skills to be civically engaged and foster leadership skills to have a positive impact in the future.
